Experience

Junior Software Engineer Dec 2025 – Present
Saeculum Solutions Pvt. Ltd. Ahmedabad, India

- **CRM Application (Microfrontend Architecture)** Contributing to a scalable CRM platform built on microfrontend architecture, working across the main container application and multiple independent micro frontends using internal UI libraries based on Ant Design.
- **Framer Plugin – Auto Alt Text** Designed and developed frontend functionality for the Auto Alt Text plugin in Framer. Implemented automated alt text generation and handling logic to enhance accessibility standards and improve content optimization workflows. Integrated Framer Plugin APIs and property controls to manage dynamic configurations and user inputs.
- **Framer Plugin – Forms Plugin** Architected and built a custom Forms Plugin with Basic, Advanced, and CAPTCHA-enabled fields. Developed reusable field schemas and dynamic configurations for scalable form creation. Worked extensively with Framer Plugin APIs and property controls to enable flexible and user-friendly form management.
- **WAWF Admin Panel – Enterprise Web Application (Ongoing)** Building enterprise-level frontend modules using React, TypeScript, JavaScript, Tailwind CSS, and Ant Design. Developed reusable UI components such as Modals, Drawers, Collapse panels, and Loaders. Implemented internationalization (i18n) using structured languages json files and improved runtime stability through bug fixes and UI optimizations.
- **WAWF Extension – (Ongoing)** Worked on a browser extension that provides additional business features for WhatsApp Web. Contributed to both frontend development and extension functionality using React, TypeScript, and JavaScript.

Software Engineer Intern May 2025 – Nov 2025
Saeculum Solutions Pvt. Ltd. Ahmedabad, India

- Gained hands-on experience with production-level development workflows and industry coding standards.
- Built and enhanced responsive UI features using React, JavaScript,TypeScript, Ant Design, HTML, CSS and Tailwind CSS.
- Collaborated within Agile sprints using Git-based version control and team review processes.
- Developed strong understanding of SDLC, component-based architecture, and real-world problem solving.

Projects

Smart Contact Manager *Github*

- A web-based application for efficient contact management, allowing users to securely add, edit, view, and delete contacts.
- Designed a responsive, user-friendly interface for seamless performance across devices.
- Tech Stack: HTML, Tailwind CSS, MySQL, RESTful API, Spring Boot

Job Portal Web Application *Github*

- A platform connecting job seekers and employers, featuring job postings and applications.
- Secure user authentication, resume uploads, and advanced job search functionalities.
- Built with a responsive design for seamless accessibility.
- Tech Stack: Spring Boot,Tailwind CSS, MySQL, RESTful API, React JS

Education

B.Tech in Computer Science Engineering July 2021 – June 2025
Jawaharlal Institute Of Technology, Borawan Khargone

- CGPA: 7.76

Technical Skills

Programming Languages: Java, JavaScript, Typescript

Frontend: HTML, CSS, Tailwind CSS, React JS, Ant Design (antd), Framer (Plugin Development)

Tools/Software: VS Code, Git, GitHub, GitHub Desktop

Backend Frameworks: Basic Spring, Spring Boot

Databases: MySQL, SQL

Core Concepts: Object-Oriented Programming (OOP)

Achievements and Certifications

- Solved 250+ Problems on coding platforms.
- Java Programming Certification – Infosys Springboard.
- Spring Development Certification – LinkedIn Learning.
